

経験者 Level Student's Weekly Report

(I was off today) Today was off. I went to get haircut and then let my car checked to know how much it is to fix that. It was very expensive, so I'll (go to) another shop. (brought my car to a mechanic's shop) (got) (try)

I made Oden for dinner. Because it's good food to get hot, of course goes well with beer. I can't help eating that too much, I'll (get fatter) (gain weight) (I couldn't stop eating it, so I ate too much)

There was a board game party at Eieigo. I was going to eat dinner after the party, but some people recommended me some food. I was happy, but also sorry because I had nothing to return to them. (today/tonight) (at the party) (offered) (I felt bad) (offer them in)

I listen to National Public Radio all the night while I'm sleeping recently. It mightn't be good, but I'd like to do because I want to master English. Foreigners speak really fluently and fast, and it's perfectly different (like) (as if) my English were another language. (recently, I've been listening the) (might not) (for me) (continue) (completely) (to mine, it's)

I bought some fried chicken and croquettes on my way home. My daughter usually doesn't like my menus, But when she found that, she appealed that she want to eat. (my dishes) (the food I cook) (but) (said/showed me) (ed) (them) (saw those)

Teacher's advice:
 Try using simpler vocabulary and try using "a", "the", "my", and "I" more.
 Try thinking about how to use "this", "that", "these" and "those". Otherwise, good work! ☺
